

Kit Library - Data Specs

Questions:

1. public library should be implemented differently?
2. Verify user_tier is sent
3. clicking “back to library” from kit preview reloads the library? (will it count as `Kitlib_opened` ?)

Event_Name	Trigger Description	Property Names	Status	Comments
<code>Kitlib_opened</code>	kit library loaded	referrer_area: kit import/ wp_db_templates_menu/ onboarding/ {dynamic for unknown entry points}		funnel analysis
<code>kitlib_category_selected</code>	category clicked (don't send when deselected	<code>kit_category</code>		
<code>kitlib_tag_selected</code>	tag clicked (don't send when deselected	<code>kit_tag</code>		
<code>kitlib_plan_filter_selected</code>	plan filter clicked (don't send when deselected	<code>kit_plan_filter</code>		
<code>kitlib_sorter_selected</code>	sorter selected from dropdown	<code>kit_sorter:</code> featured/ new/ popular/ trending		
<code>kitlib_search_submit</code>	search bar got an input and went	<code>kit_search_input</code> {}		

ted	out of focus (any action outside the bar) will send the input value	kit_search_result_count {#}		
kitlib_favorite_clicked	heart icon clicked on kit card	kit_id {}, kit_title {}		
kitlib_favorite_tab	favorite tab opened			
kitdemo_clicked	"See Demo" on a kit card clicked	kit_id {}, kit_title {}, position_index {}, requires_pro {plan}		
kitdemo_opened	Demo/preview loaded	kit_id , kit_title		
kitdemo_apply_clicked	Apply button clicked	kit_id {}, kit_title {}, requires_pro {plan}		
kitdemo_apply_remove_existing	when the relevant popup shows (shown when site has a kit applied already)	remove_existing_kit : remove/apply anyway		
kitdemo_apply_all_or_customize	when the relevant popup shows (always)	apply_all : boolean		
kitdemo_applied	Kit import completes successfully	kit_id , kit_title , duration_s		

kitdemo_ap ply_failed	appli fails.	kit_id , kit_title , error_title		
kitdemo_do wnload_cli cked	download clicked	kit_id , kit_title		
kitdemo_up grade_clic ked		kit_id , kit_title , kit_demo_upgrade_ plan {}		
kitdemo_ov erview_cli cked		kit_id , kit_title		
kitdemo_ov erview_bac k	clicked back to demo	kit_id , kit_title		
kitlib_ses sion_ended	library is closed or inactive for over 30min (session summary).	duration_ms , actions_count , filters_count , demo_views , kit_applied : boolean
